

Science 10/03/23

Hello! Next week, all the classes are going to be involved in a school competition to determine **the most important animal of all!**

Starlings class has been assigned the sea otter, and I'm confident that you are going to be remarkable researchers and find enough information about sea otters to convince the whole school that they are the most important animal of all.

You can either type and print your information, or you can print off the following page to hand write your notes on. Please remember to always ask a grownup before you use the internet, show them the sites you are using and always tell a grownup if you come across something that makes you feel scared or upset. Here are some websites that you might find helpful for your research:

[Sea Otter - Animal profile, pictures, facts, range map \(nationalgeographic.com\)](https://www.nationalgeographic.com/animals/mammals/sea-otter/)

[Sea Otter Facts For Kids | Sea Otter Habitat | DK Find Out](#)

[Sea Otter Facts & Information For Kids, Pictures, Video & More \(activewild.com\)](https://www.activewild.com/animals/sea-otter/)

[Sea otter Facts for Kids \(kiddle.co\)](https://www.kiddle.co/animals/sea-otter/)

[Sea Otter Facts For Kids - All About Sea Otters \(kidzfeed.com\)](https://www.kidzfeed.com/animals/sea-otter/)

Happy researching Starlings! Miss Potter
