

SPORTING INFLUENCE

Improving Social Skills Through Sport

PE With Mr Crooks, Mr McTernan, Mr Atkinson, and Miss Bruce

With Mr Crooks, Owls Class have been exploring several creative games and how they can outwit opponents using skills and strategy. Herons have been focusing on a health-related unit of work, such as the differences between a fixed vs growth mindset.

It has been a competitive last term on Tuesday afternoons where Mr McTernan has worked with the Eagles and the Ravens. We started by adapting a netball-style game after Easter and this developed brilliantly with great displays of attack and defence as well as tactical awareness. In the final half term, we have prepared for Athletics with visits to the Stray to look at reaction time sprinting and team relays.

Across 3 different mornings every class in the whole school took part in an action-packed morning with Mr Crooks, Mr Atkinson and Miss Bruce. KS1 classes had a Thursday morning full of multi-sport activities, such as throwing, jumping, and balancing. Where KS2 classes took part in a dodgeball competition. Every class were superb and demonstrated brilliant determination, respect, and encouragement.

After two weeks delay, we had our annual sports day on the Stray. In the morning, the whole school took part in a carousel of sporting events within their classes. In the afternoon, classes from KS2 took part in an intra-school rounders competition.

Everyone from Sporting Influence have thoroughly enjoyed their time working with St Peters this year and are looking forward to continue in the new academic term.

A wet Tuesday morning with Owls Class.

Golf putting at Sports Day 2023.
