

Key Stage 1 Geography Curriculum Newsletter

Dear families of St Peter's,

In Geography this term, we are asking: 'Why is our school location special?'

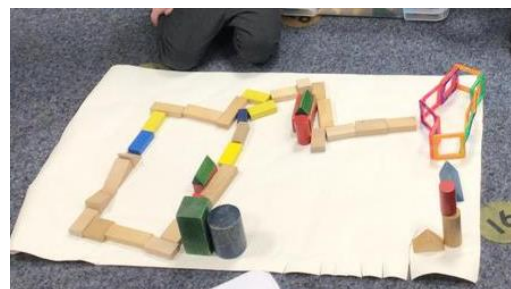

Many children love to extend their learning at home, so here's some suggestions you may wish to explore together with your child:

- Locate your home, St. Peter's School and nearby landmarks on [Google Earth](#). You could think about/ discuss the following questions:
 - Can you spot and name any more well-known landmarks?
 - Explore the different tools. What do they do? What is the same/different?
 - Zoom in and out. What you notice. How close do you need to zoom to find the UK? Harrogate? School?
- Download the [Harrogate Plaques Trail app](#). The plaques tell a history of Harrogate, through its Spa heritage and the people and buildings associated with that history. As a family, follow one of the trails!
- Make a '[messy map](#)' of your local area/St. Peter's local area.

Harrogate Plaques

Best wishes,

Mrs D Robbins (Geography Lead)
